

Traudi Segebahn

ML Engineer

seberhardt@example.org | 08163 98427 | Regensburg

SUMMARY

ML Engineer with 4+ years building internal systems. Comfortable across neural networks, containerisation (Docker), model deployment & monitoring. Enjoys owning a problem end to end, from design through on-call.

SKILLS

neural networks ☐ containerisation (Docker) ☐ model deployment & monitoring ☐ advanced SQL ☐ scikit-learn pipelines ☐ Torch ☐ TensorFlow 2

WORK EXPERIENCE

Sep 2024 – Present

ML Engineer, NVIDIA

- ☐ Built the feature pipeline feeding 3 features from MySQL into the inventory model.
- ☐ Reduced training cost by 19% by moving from full retraining to incremental updates.
- ☐ Ran error analysis on search predictions and closed the top 5 failure modes.
- ☐ Set up experiment tracking and model registry so 5 engineers could reproduce runs.

Mar 2023 – Sep 2024

ML Engineer, IBM

- ☐ Wrote drift monitoring that alerted on a 36% distribution shift in logistics inputs.
- ☐ Trained and shipped a gradient boosting model for logistics, improving F1 from 28% to 39%.
- ☐ Set up experiment tracking and model registry so 5 engineers could reproduce runs.
- ☐ Fine-tuned a pretrained Hugging Face Transformers model on 8M labelled claims examples.
- ☐ Built an NLP pipeline over 600K documents for inventory classification using Hugging Face Transformers.

Nov 2020 – Sep 2022

Applied Scientist, Adobe

- ☐ Cut inference latency from 480ms to 210ms through quantisation and batching.
- ☐ Reduced training cost by 31% by moving from full retraining to incremental updates.
- ☐ Fine-tuned a pretrained Hugging Face Transformers model on 220K labelled search examples.
- ☐ Trained and shipped a transformer model for notifications, improving F1 from 13% to 23%.

ACADEMICS

B.Sc in Computer Science

Sunrise Institute of Technology (2017 - 2020)

Higher Secondary (Class 12), ICSE

St. Xavier's School (2015 - 2017)

HONORS & AWARDS

- ☐ Winner, risk track at the national SQL hackathon.

CERTIFICATIONS

- ☐ Certified Kubernetes Application Developer (CKAD)
- ☐ Tableau Desktop Specialist
- ☐ Google Professional Data Engineer

ACADEMIC PROJECTS

Recommendation Engine

Collaborative filtering on 12K interactions serving payments.
