

Imelda Serna Vila

Senior Backend Developer

zporta@example.com | +34975031145 | Cáceres

PROFILE

Senior Backend Developer with 5+ years building production systems. Comfortable across Node (Express), async Python APIs (FastAPI), Postgres. Works well with product and design on ambiguous problems.

SKILLS

Node (Express) * async Python APIs (FastAPI) * Postgres * REST APIs * version control (Git)

EMPLOYMENT HISTORY

2022 - 2024

Senior Backend Developer, CRED

- * Containerised the notifications stack and moved CI/CD onto ECS.
- * Built API-key authentication and rate limiting for 15 public API consumers.
- * Instrumented the logistics service with metrics and alerts, cutting incident detection to under 3 minutes.
- * Wrote integration tests covering 34% of the search endpoints and gated deploys on them.

2019 - 2021

Backend Engineer, PhonePe

- * Designed and shipped 18 REST endpoints for the catalog service in Kotlin.
- * Modelled the notifications schema in MongoDB and tuned indexes to cut query time by 61%.
- * Implemented idempotent logistics processing with a message queue to survive retries.
- * Built JWT-based authentication and rate limiting for 22 public API consumers.
- * Instrumented the search service with metrics and alerts, cutting incident detection to under 18 minutes.

2017 - 2019

Backend Developer, Paytm

- * Designed and shipped 12 REST endpoints for the catalog service in Java.
- * Led the migration of risk data from Snowflake to a partitioned schema without downtime.
- * Instrumented the risk service with metrics and alerts, cutting incident detection to under 22 minutes.

ACADEMICS

B.Sc in Computer Science

Crestwood College of Engineering (2014 - 2017)

PROJECTS

Healthcare Records API

FHIR-style REST API with OAuth2 auth and audit logging.

Food Delivery Backend

Order and dispatch services handling 220K orders per day.
