ACADEMICS

BCA

BITS Pilani (2008 - 2011)

Intermediate (12th)

DAV Public School (2006 - 2008)

EMPLOYMENT HISTORY

Data Analyst - Capgemini

2022 to 2024

- Cleaned and reconciled 150K rows of inventory data across 6 source systems.
- Ran an A/B test on billing conversion that lifted the metric by 50% at 90% significance.
- Investigated a 28% anomaly in claims volumes and traced it to a broken upstream ETL job.

Senior Data Analyst - Amazon

2018 to 2022

- Wrote BigQuery queries against a 3M-row warehouse to size the logistics opportunity, informing a 38% budget shift.
- Defined 18 core metrics and their SQL definitions so reporting stopped disagreeing across teams.
- Ran an A/B test on logistics conversion that lifted the metric by 44% at 99% significance.
- Cleaned and reconciled 220K rows of billing data across 16 source systems.
- Built 24 Looker dashboards tracking onboarding performance for a team of 11 stakeholders.

Senior Data Analyst - Accenture

2014 to 2017

- Built a cohort retention model in R that identified a 15% drop-off at week 9.
- Partnered with engineering to instrument 7 new events for onboarding funnel analysis.
- Presented monthly catalog findings to 3 business leads and translated them into tracked actions.

Senior Data Analyst - EY

2011 to 2014

- Presented monthly risk findings to 12 business leads and translated them into tracked actions.
- Wrote MongoDB queries against a 3M-row warehouse to size the notifications opportunity, informing a 40% budget shift.
- Automated a weekly claims report that previously took 20 hours of manual work.

ACADEMIC PROJECTS

Marketing Attribution Model

Multi-touch attribution across 11 channels using SQL.

Pricing Elasticity Study

Regression study on payments pricing across 14 product lines.

INTERESTS

Chess, long-distance running, amateur astronomy.
