TUF+: 350+ DSA problems | LeetCode: 200+ problems

Email: Viyomshukla21@gmail.com

Mobile: +91-6397333481

Location: Noida, India

Skills Summary

- **Languages:** C++ (Proficient), Python (Proficient), C, JavaScript, SQL, Bash (Basic)
- **Cloud & DevOps:** AWS (Elastic Beanstalk, EC2, S3), Docker, Cloudinary, Git, GitHub
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS, HTML/CSS
- **Databases:** MongoDB Atlas (Cloud), MySQL, Supabase, Firebase
- **Core CS:** Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, Distributed & Scalable Systems, OOP, Machine Learning

Education

- **Jaypee Institute of Information Technology** Noida, India
Integrated B.Tech + M.Tech in Computer Science Engineering; CGPA: 7.62/10 2022 – 2027
- **Gayatri Public School** Agra, India
Class XII (CBSE): 88.6% | Class X (CBSE): 86.6%

Experience

- **Distance Connect** Remote
Web Developer Intern Aug 2025 – Oct 2025
 - **Scalable Architecture:** Designed and developed a scalable web application using React.js and Node.js in a multi-tier architecture.
 - **Distributed Systems:** Built and integrated REST APIs enabling efficient data processing and real-time communication across services.
 - **Performance & Reliability:** Optimized frontend rendering and system performance, enhancing scalability and user experience by 40%.

Projects

- **Thumblify — AI-Powered SaaS (Distributed System Integration):** [\(Source Code\)](#)
Designed a scalable full-stack SaaS platform (MERN) supporting 100+ users, with **Cloudinary** for cloud-based image storage/CDN delivery and **MongoDB Atlas** as the managed cloud database.
Integrated Gemini and Replicate APIs for real-time, fault-tolerant image processing; built a WhatsApp bot via Twilio API enabling mobile thumbnail generation; developed a Chrome extension optimized for high throughput at scale.
Tech: MongoDB Atlas, Express.js, React.js, Node.js, Cloudinary, Twilio, Gemini/Replicate APIs
- **Disaster Alert System — Cloud-Hosted Web App (AWS):** [\(Live on AWS\)](#)
Built and deployed a real-time disaster alert web application on **AWS Elastic Beanstalk** (ap-south-1), managing the full deployment lifecycle: environment configuration, health monitoring, and scaling.
Gained hands-on experience with cloud provisioning, load-balanced environments, and highly available infrastructure.
Tech: AWS Elastic Beanstalk, Node.js, JavaScript, MongoDB Atlas
- **PDF Outline Extractor — Adobe India Hackathon '25 (Round 1A):** [\(Source Code\)](#)
Engineered a fully **Dockerized**, offline batch pipeline that parses PDFs into structured hierarchical JSON outlines (title, H1/H2/H3 with page numbers) via heuristic font-size/weight/position analysis — no ML models or internet required.
CPU-only processing of a 50-page PDF in under 10 seconds; containerized with volume-mounted I/O for reproducible, portable execution; Unicode-aware multilingual support (CJK, Arabic, Hindi).
Tech: Python, PyMuPDF, Docker

Achievements

- **Research Publications — 2 Papers on IEEE (IC3, IIIT Noida):**
 - (1) *Enhancing Network Intrusion Detection Using Conditional GANs for Imbalanced Data Classification* — [IEEE Xplore Digital Library](#): generated synthetic data with Conditional GANs for minority attack classes on the NSL-KDD dataset, achieving 99.8% accuracy with ensemble methods (Random Forest, SVM, Neural Networks).
 - (2) *Enhancing Network Intrusion Detection Using Quantum GANs for Imbalanced Data Classification* — Accepted at the 18th International Conference on Contemporary Computing (IC3-2026); *soon to be published on IEEE Xplore*: used Quantum GANs with hybrid quantum learning to synthesize rare attack samples, achieving 99.9% accuracy on the NSL-KDD dataset.
- **International Conference Speaker:**
Presented research on Network Intrusion Detection at the 17th IC3-2025, IIIT Noida. [Certificate](#)
- **Competitive Programming:**
Solved 350+ DSA problems on TUF+, 200+ DSA and 50+ SQL problems on LeetCode, and 100+ on GeeksforGeeks, focusing on optimization, time complexity, and algorithm design.
- **National Hackathons & Leadership:**
Participated in Smart India Hackathon 2023, Adobe India Hackathon '25, Flipkart Grid 6.0, and Amazon ML Challenge; Student Placement Committee Member supporting 200+ students in their job search.
